

MOUSUMI MUKHERJEE

Front-End & Full-Stack Web Developer

+46 76 156 99 91 | mousmichatterjee6@gmail.com | Stockholm, Sweden | Swedish Citizen

[Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFILE

Web developer with hands-on experience across both front-end and full-stack development, using React, Next.js, Angular, TypeScript, C#, .NET, and SQL Server. Built and deployed a full-stack CRUD application with JWT authentication (BookVault) and an e-commerce web application consuming a REST API. Hands-on experience across the stack — from responsive, accessible UI components to backend APIs and database design. Experienced in Agile/Scrum teamwork, unit/integration testing, Git version control, and CI/CD deployment pipelines. Seeking a Front-End or Full-Stack Developer internship (LIA) or junior role.

EDUCATION

Frontend Development (YH Program) | Future Games, Stockholm

August 2025 – Present

- Built and deployed responsive web applications using React, Next.js, TypeScript, and modern frontend tools.
- Developed projects integrating REST APIs, state management, testing, and deployment workflows.
- Worked in Agile/Scrum teams, translating Figma designs into accessible and responsive user interfaces.
- Used Git/GitHub, Vercel, Jest, and React Testing Library as part of the development process.
- Learning to use AI-assisted development tools such as Lovable as part of my studies..

XR Development | Hyper Island, Stockholm

August 2024 – May 2025

- Designed and developed XR (AR/VR) experiences using Agile methodology, delivering functional interactive prototypes through iterative sprints and continuous user feedback.

Bachelor's Degree in Fashion Design | INIFD

January 2010 – December 2013

PROJECTS

Course Assignment | Val (E-Commerce) — Future Games, Stockholm

September 2026

[Live demo: val-ecommerce.vercel.app](#)

- Built a front-end e-commerce site with product browsing and dynamic category routes, using Next.js, React, and TypeScript.
- Implemented a shopping cart with quantity management and a sign-in flow, using the Context API for state management.

Full-Stack Personal Project | BookVault

September 2026

[Live demo: brave-stone-058ce9710.5.azurestaticapps.net](#)

- Built a full-stack library management app with book cataloging (create, edit, update, delete) and a personal favorite-quotes module, using Angular, .NET, and SQL Server with Entity Framework Core.
- Designed a sign-in/register landing page with JWT-based authentication, so each user securely manages their own books and quotes.
- Styled the app with Bootstrap, including light and dark theme support; designed the database schema and REST API from scratch and deployed end-to-end on Azure.

EXPERIENCE

Prior to transitioning into web development, built a professional background in fashion, retail, and production — developing transferable skills in client communication, vendor coordination, planning, quality control, and customer service.

Business Owner (Part-time) | Threads & Needles

2018 – Present

- Provide garment alterations and customizations with high attention to detail.
- Deliver tailored solutions based on customer preferences and fit requirements.

Sales Assistant | Nudie Jeans

September 2021 – October 2021

- Assisted customers with shopping, outfit recommendations, and fitting room support.
- Handled cash register operations, including returns and clothing alterations upon request.

Sales Assistant | Zara

April 2021 – August 2021

- Greeted customers and maintained a welcoming shop floor presentation.
- Positioned promotional products and merchandise during sales and campaigns.

Production Coordinator | TCNS

2014 – 2017

- Coordinated production schedules and timelines across multiple garment manufacturing vendors.
- Ensured quality control standards were met before shipment.

Product Development Assistant | Hausmod

2013 – 2014

- Assisted in product development processes, from concept through sample production.
- Supported sourcing of materials and coordination with manufacturing partners.

SKILLS

Frontend: React, Next.js, Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Responsive & Mobile-First Design, Web Accessibility (WCAG)

Backend: C#, .NET, ASP.NET Core, Node.js, REST APIs

Database: SQL Server, Entity Framework Core

Styling & Testing: Tailwind CSS, Bootstrap, MUI, Framer Motion, Jest, React Testing Library

Tools & Workflow: Git, GitHub, GitHub Actions (CI/CD), Figma (design-to-code), Azure, Vercel, Agile/Scrum

Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability
