PROFILE

Frontend Developer with experience developing modern, responsive web applications using React, Next.js, TypeScript, JavaScript, HTML, CSS, and Angular through academic and client projects. Skilled in creating reusable UI components, integrating REST APIs, and translating Figma designs into responsive interfaces. Also have hands-on experience with C#, .NET, SQL Server, Entity Framework Core, JWT authentication, and fullstack application development. Experienced in Agile/Scrum teamwork, unit and integration testing, Git version control, and CI/CD deployment. Currently seeking a LIA internship or junior Frontend or Fullstack Developer opportunity where I can contribute, collaborate, and continue growing as a developer.

EDUCATION

Frontend Development (YH Program) | Future Games, Stockholm

August 2025 – Present

- Built and deployed responsive web applications using React, Next.js, TypeScript, and modern frontend tools.
- Developed projects integrating REST APIs, state management, testing, and deployment workflows.
- Worked in Agile/Scrum teams, translating Figma designs into accessible and responsive user interfaces.
- Used Git/GitHub, Vercel, Jest, and React Testing Library as part of the development process.
- Learning to use AI assisted development tools such as Lovable as part of my studies.

XR Development | Hyper Island, Stockholm

August 2024 – May 2025

- Designed and developed XR (AR/VR) experiences using Agile methodology, delivering functional interactive prototypes through iterative sprints and continuous user feedback.

Bachelor's Degree in Fashion Design | INIFD

January 2010 – December 2013

PROJECTS

Course Assignment | Val (E-Commerce) — Future Games, Stockholm

September 2026

[Live demo: val-ecommerce.vercel.app](#)

- Built a front-end e-commerce site with product browsing and dynamic category routes, using Next.js, React, and TypeScript.
- Implemented a shopping cart with quantity management and a sign-in flow, using the Context API for state management.

Fullstack Personal Project | BookVault

September 2026

[Live demo: brave-stone-058ce9710.5.azurestaticapps.net](#)

- Built a full-stack library management app with book cataloging (create, edit, update, delete) and a personal favorite-quotes module, using Angular, .NET, and SQL Server with Entity Framework Core.
- Designed a sign-in/register landing page with JWT-based authentication, so each user securely manages their own books and quotes.
- Styled the app with Bootstrap, including light and dark theme support, designed the database schema and REST API from scratch and deployed end-to-end on Azure.

EXPERIENCE

My background in fashion, retail, and production has given me transferable skills in client communication, vendor coordination, planning, quality control, and customer service, which I now bring to web development.

Business Owner (Part-time) | Threads & Needles

2018 – Present

- Provide garment alterations and customizations with high attention to detail.
- Deliver tailored solutions based on customer preferences and fit requirements.

Sales Assistant | Nudie Jeans

September 2021 – October 2021

- Assisted customers with shopping, outfit recommendations, and fitting room support.
- Handled cash register operations, including returns and clothing alterations upon request.

Sales Assistant | Zara

April 2021 – August 2021

- Greeted customers and maintained a welcoming shop floor presentation.
- Positioned promotional products and merchandise during sales and campaigns.

Production Coordinator | TCNS

2014 – 2017

- Coordinated production schedules and timelines across multiple garment manufacturing vendors.
- Ensured quality control standards were met before shipment.

Product Development Assistant | Hausmod

2013 – 2014

- Assisted in product development processes, from concept through sample production.
- Supported sourcing of materials and coordination with manufacturing partners.

SKILLS

Frontend: React, Next.js, Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Responsive & Mobile-First Design, Web Accessibility (WCAG)

Backend: C#, .NET, ASP.NET Core, Node.js, REST APIs

Database: SQL Server, Entity Framework Core

Styling & Testing: Tailwind CSS, Bootstrap, MUI, Framer Motion, Jest, React Testing Library

Tools & Workflow: Git, GitHub, GitHub Actions (CI/CD), Figma (design-to-code), Azure, Vercel, Agile/Scrum

Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability
