PROFILE

Frontend Development student at Future Games in Stockholm who learns new technologies quickly and enjoys it. Through my studies I have worked with React, Next.js and TypeScript, and I have also taught myself Angular, C#, .NET, SQL Server and Azure by building a fullstack application on my own. Coming from a background in fashion and production, I am used to learning new areas from scratch and taking ownership of the result. I am curious about how things work and like to understand a problem before building the solution. Seeking a LIA (internship) from January to May 2027.

EDUCATION

Frontend Development (YH Program) | Future Games, Stockholm

August 2025 – Present

- Built and deployed responsive web applications using React, Next.js, TypeScript, and modern frontend tools.
- Developed projects integrating REST APIs, state management, testing, and deployment workflows.
- Worked in Agile/Scrum teams, translating Figma designs into accessible and responsive user interfaces.
- Used Git/GitHub, Vercel, Jest, and React Testing Library as part of the development process.
- Learning to use AI assisted development tools such as Lovable as part of my studies.

XR Development | Hyper Island, Stockholm

August 2024 – May 2025

- Designed and developed XR (AR/VR) experiences using Agile methodology, delivering functional interactive prototypes through iterative sprints and continuous user feedback.

Bachelor's Degree in Fashion Design | INIFD

January 2010 – December 2013

PROJECTS

Client Group Project | HSS Website — Future Games, Stockholm

June 2026

Live demo: hss-website-two.vercel.app

- Developed two responsive pages (FAQ and policy) for a client website using Next.js, TypeScript, and Tailwind CSS as part of a five-person frontend team.
- Implemented Swedish and English language support with next-intl and integrated Instagram API data to dynamically render the client's Instagram posts.

Self-trained Fullstack Project | BookVault

September 2026

Live demo: brave-stone-058ce9710.5.azurestaticapps.net

- Built a fullstack library management application using Angular, C#, .NET, SQL Server and Entity Framework Core.
- Implemented user registration and sign-in with JWT-based authentication, allowing users to manage their own data.
- Styled the interface with Bootstrap, including light and dark themes, and deployed the complete application end-to-end on Azure.

EXPERIENCE

My background in fashion, retail, and production has given me transferable skills in client communication, vendor coordination, planning, quality control, and customer service, which I now bring to web development.

Business Owner (Part-time) | Threads & Needles, Stockholm

2018 – Present

- Provide garment alterations and customizations with high attention to detail.
- Deliver tailored solutions based on customer preferences and fit requirements.

Sales Assistant | Nudie Jeans, Stockholm

September 2021 – October 2021

- Assisted customers with shopping, outfit recommendations, and fitting room support.
- Handled cash register operations, including returns and clothing alterations upon request.

Sales Assistant | Zara, Stockholm

April 2021 – August 2021

- Greeted customers and maintained a welcoming shop floor presentation.
- Positioned promotional products and merchandise during sales and campaigns.

Production Coordinator | TCNS, India

2014 – 2017

- Coordinated production schedules and timelines across multiple garment manufacturing vendors.
- Ensured quality control standards were met before shipment.

Product Development Assistant | Hausmod, India

2013 – 2014

- Assisted in product development processes, from concept through sample production.
- Supported sourcing of materials and coordination with manufacturing partners.

SKILLS

Frontend: React, Next.js, TypeScript, Angular (self-trained), JavaScript (ES6+), HTML5, CSS3, Responsive & Mobile-First Design, Web Accessibility (WCAG)

Backend (self-trained): C#, .NET, ASP.NET Core, Node.js, REST APIs

Database (self-trained): SQL Server, Entity Framework Core

Styling & Testing: Tailwind CSS, Bootstrap, MUI, Shadcn, Framer Motion, Jest, React Testing Library

Tools & Workflow: Git, GitHub, GitHub Actions (CI/CD), Figma (design-to-code), Azure, Vercel, Agile/Scrum

Soft Skills: Problem Solving, Team Collaboration, Initiative, Communication, Adaptability

LANGUAGES

English (Fluent) | Swedish (Basic Working Knowledge)
