## PROFILE

Frontend Development student at Future Games in Stockholm who learns new technologies quickly and enjoys the process. Through my studies, I have worked with React, Next.js and TypeScript. I have also worked with Angular, C#, .NET and SQL Server while building a fullstack application. I am looking for a LIA internship from January to May 2027, where I can apply my current skills and continue learning as a developer.

## EDUCATION

**Frontend Development (YH Program) | Future Games, Stockholm** August 2025 – Present
- Built and deployed responsive web applications using React, Next.js, TypeScript, and modern frontend tools.
- Developed projects integrating REST APIs, state management, testing, and deployment workflows.
- Worked in Agile/Scrum teams, translating Figma designs into accessible and responsive user interfaces.
- Used Git/GitHub, Vercel, Jest, and React Testing Library as part of the development process.
- Learning to use AI assisted development tools such as Lovable as part of my studies.

**XR Development | Hyper Island, Stockholm** August 2024 – May 2025
- Designed and developed XR (AR/VR) experiences using Agile methodology, delivering functional interactive prototypes through iterative sprints and continuous user feedback.

**Bachelor's Degree in Fashion Design | INIFD** January 2010 – December 2013

## PROJECTS

**Client Group Project | HSS Website — Future Games, Stockholm** June 2026
Live demo: hss-website-two.vercel.app
- Developed the FAQ and policy pages for a client website using Next.js, TypeScript and Tailwind CSS, working in a five-person frontend team.
- Implemented Swedish and English language support using next-intl and integrated Instagram API data to display the client's posts dynamically.

**Self-trained Fullstack Project | BookVault** September 2026
Live demo: brave-stone-058ce9710.5.azurestaticapps.net
- Built a fullstack library management application using Angular, C#, .NET, SQL Server and Entity Framework Core.
- Implemented user registration and sign-in with JWT-based authentication, allowing users to manage their own data.
- Styled the interface with Bootstrap, including light and dark themes, and deployed the application on Azure.

## EXPERIENCE

My background in fashion, retail, and production has given me transferable skills in client communication, vendor coordination, planning, quality control, and customer service, which I now bring to web development.

**Business Owner (Part-time) | Threads & Needles, Stockholm** 2018 – Present
- Provide garment alterations and customizations with high attention to detail.
- Deliver tailored solutions based on customer preferences and fit requirements.

**Sales Assistant | Nudie Jeans, Stockholm** September 2021 – October 2021
- Assisted customers with shopping, outfit recommendations, and fitting room support.
- Handled cash register operations, including returns and clothing alterations upon request.

**Sales Assistant | Zara, Stockholm** April 2021 – August 2021
- Greeted customers and maintained a welcoming shop floor presentation.
- Positioned promotional products and merchandise during sales and campaigns.

**Production Coordinator | TCNS, India** 2014 – 2017
- Coordinated production schedules and timelines across multiple garment manufacturing vendors.
- Ensured quality control standards were met before shipment.

**Product Development Assistant | Hausmod, India** 2013 – 2014
- Assisted in product development processes, from concept through sample production.
- Supported sourcing of materials and coordination with manufacturing partners.

## SKILLS

**Frontend:** React, Next.js, TypeScript, Angular (self-trained), JavaScript (ES6+), HTML5, CSS3, Responsive & Mobile-First Design, Web Accessibility (WCAG)
**Backend (coursework):** Node.js, Express, Supabase (PostgreSQL, authentication, storage)
**Backend (self-trained):** C#, .NET, ASP.NET Core, Node.js, REST APIs
**Database (self-trained):** SQL Server, Entity Framework Core
**Styling & Testing:** Tailwind CSS, Bootstrap, MUI, Framer Motion, Jest, React Testing Library
**Tools & Workflow:** Git, GitHub, GitHub Actions (CI/CD), Figma (design-to-code), Azure, Vercel, Agile/Scrum
**Soft Skills:** Problem Solving, Team Collaboration, Independent Work, Initiative, Communication, Adaptability

## LANGUAGES

English (Fluent) | Swedish (Basic Working Knowledge)
